

# Senior Salesforce Implementer

We are looking for a Senior Salesforce Implementer who is passionate about building products that customers love.

Right now we are focusing on Implementers for a specific client for a full-time, long-term, fully remote position.

## **As a Senior Salesforce Implementer, you will be responsible for:**

- Translating new and existing client requirements into a flawless technical solution
- Creating reports and dashboards by working closely with other internal stakeholders to meet client deliverables from product and timeline perspective

## **What you bring (experience):**

- 3+ years of hands-on experience with Salesforce applications
- Prior experience utilizing Salesforce
- Experience in designing and implementing Salesforce solutions
- System configuration: Ability to effectively design a scalable solution to meet client business needs
- Experience with flows and creating dashboards
- Analytical techniques: experience in requirements gathering and documenting outcomes, including designing process flows
- Demonstrated analytical abilities

## **Education:**

- Salesforce certification(s) - Admin - a must
- BA/BSc

**Language skills:** Excellent written and verbal communication skills in English

We hire people, not just skills. We encourage you to apply if you think this role is a great fit for you, even if you don't meet 100% of the requirements.
